

Sept. 12, 2023

Dear residents:

Thank you to everyone who has commented and responded to the idea of using a single company for trash collections.

The district has an appointment with the owner of Phoenix this week to resolve price discrepancies we have heard about.

It is very clear residents do care about price, but also care about which company they use. The district absolutely knows reducing heavy truck traffic is in the best interest of our road maintenance and plowing fees. With this in mind, we are stilling looking at options with Phoenix and we will continue to consider one company. We hope to make a final decision at the Sept. 27<sup>th</sup> board meeting.

When Phoenix provides a new bid, we will put out new information.

The good news is that this situation has opened up further thoughts and discussions. Stayed tuned for the next update.

Thanks very much, Janet.
